

# Custom Ordering made easy!

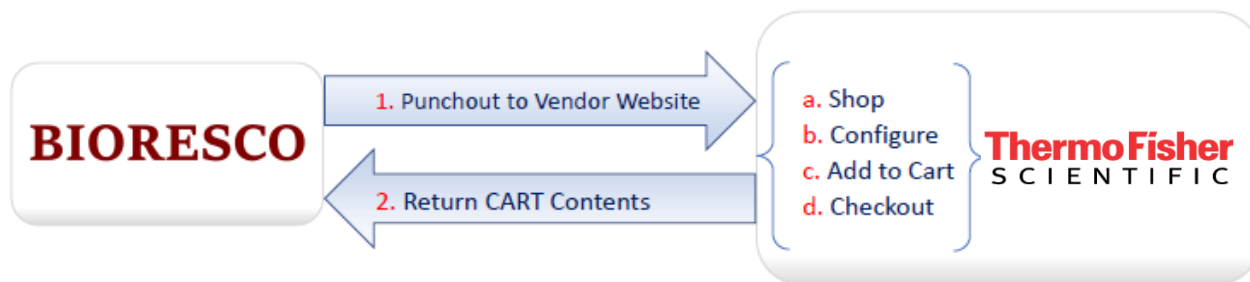

Get incredible savings when you order custom products through BIORESO

Invitrogen DNA custom oligos

Invitrogen custom RNAi oligos

Applied Biosystems custom TaqMan probes

GeneArt Gene Synthesis

Once you are logged into BIORESO, click on any of the links below to go to that Vendors' website. You'll be logged automatically into the Vendor website. Here you can shop & design all their custom offerings and add them to your CART. When you click on CHECK-OUT from the CART, all your CART contents will be transferred over to your BIORESO CART. From here you can continue shopping and complete your order as usual.

### Benefits of Punchout

- Access to all custom and configurable products on Vendor Website
- Access to design validation tools
- Access to correct discounted prices at the time of order
- ONE login: once you are logged into the BIORESO Website, you don't need to login at the Vendor's website

Please contact your sales representative with any questions:
